

Concept - Promotion of Physical and Mental Health

Contributing to wholesome development of humanity, the Earth, and outer space, to promote academic and art, to the advancement of science and technology.

Nano Technology

Quantum Dots and Healthcare

Drug Delivery System, Reagent, Reverse Aging, UV Protection

Electromagnetic Wave Technology

Preventive Health / Healthcare

Terahertz Sensing

Maintaining Freshness

Renewable Energy

Self-consumption, Reduction of Energy Loss

Thermoelectric Conversion

Solar Film

Medical Charity

Charity of Medical Supplies

Research of Food

Safe and Secure, Pesticide-free and Delicious

Plant factory Fostering

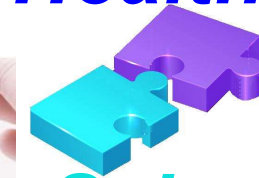

Food factory, freshness maintenance logistics

Halal hub

Healthcare

R & D

Create of Industry / Business

Science

Support / Subsidy, Dispatch Information

Platform Formation

- Cultivation, Training and Organization of individuals and groups
- IT and AI Technologies

Global Environment

CO₂ Reduction, Antivirus, etc.

Virus Measures (vaccine, etc.)
Incineration Technology, Medical/ Municipal waste

Particle Beam Therapy Blood Test

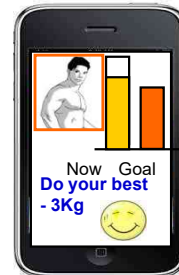

- Heavy particle beam
- Proton beam

Supplement Preventive Health Services

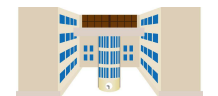

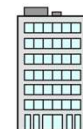

Plant

Advanced Hospital

Corporate / Group Researcher

Universities and Research Institutions
